

**AOA - Exhibit: The Lifeline Table, Churchill Museum and Cabinet War Room**

The Churchill Museum's "Lifeline Table" boldly reinvents one of the most common and tried methods used in museum interpretation, the historical timeline. The Lifeline Table provides a compelling anchor that engages the audience on individual, small group and gallery-wide levels. It advances the art and brings fresh energy to a form that was in serious need of refreshment.

# 12<sup>th</sup> Annual Thea Awards
